Game Changing Portable Radiography

We've designed a compact system that allows hand surgeons to take x-ray images without the dedicated physical space or electrical power required for a conventional x-ray machine.

More impressively, AiRTouch can acquire images and wirelessly transmit to PACS via the on-board workstation.

AiRTouch is a solution that fits your workspace — no matter what size. The wireless and battery-operated system means no floor space is taken up with a traditional radiographic system. Unlike other portable x-ray systems, AiRTouch can acquire images directly to the device, allowing hand surgeons to review the image first, and then wirelessly transmit images to a review PC via the built-in workstation.

Device Features

TWO USB PORTS

Used for powering peripheral devices and the laser component

ETHERNET PORT

Used for connecting exposure hand switch

CHARGING PORT

Simple battery charging — plugs directly into a residential 120V outlet

HAND STRAP

Hand Strap for ease of use, supporting AiRTouch's 5.5lb lightweight

7" TOUCH SCREEN DISPLAY

High Definition 7" touch screen display

WIRELESS AND COMPACT DESIGN

requires minimal space and accommodations

MINIMIZE RADIATION

to patient and operator with lowest possible dose

MAXIMIZE DAY-TO-DAY EFFICIENCY

with industry-leading battery performance

BEGIN OPERATION IMMEDIATELY

with seamlessly integrated software solution and built-in workstation

NO INSTALLATION OR ADDITIONAL EQUIPMENT REQUIRED

allows for maximized efficiency and productivity

AiRTouch Hard Case

WHAT'S INCLUDED

AiRTouch with Windows 10 Accessories

Carrying Case

Laser Light

Hand Switch

Battery Charger

Collimator

Bluetooth Mouse

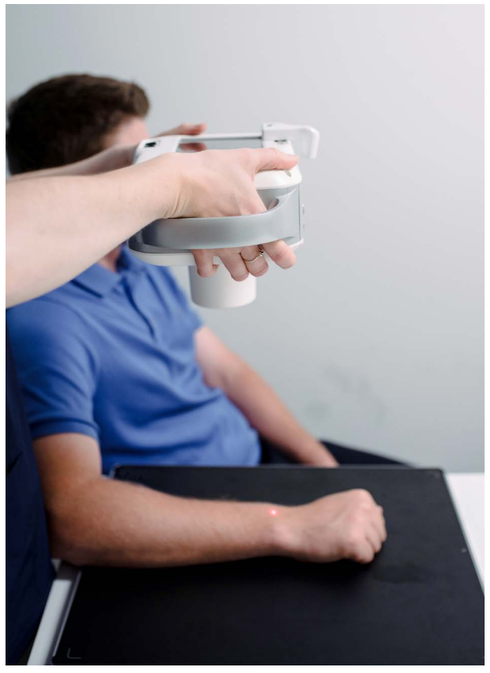

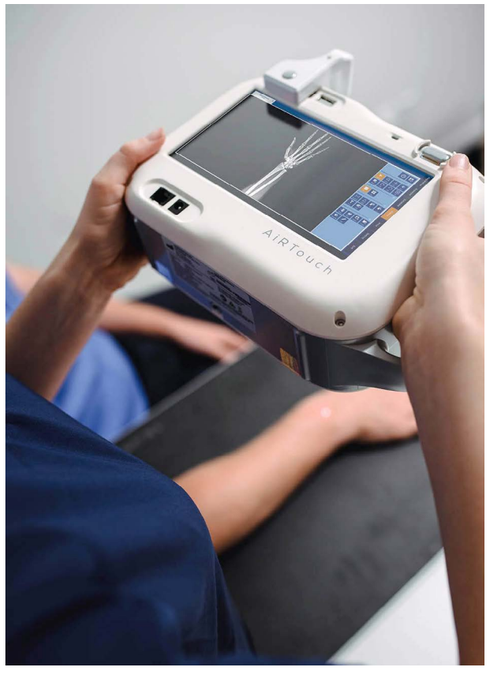

Hand X-Ray Applications

All-in-one solution that can acquire, display and transmit images using built in Wi-Fi and Bluetooth capabilities for maximized efficiency and seamless workflow.

VIEWORKS

ASPEN IMAGING IS OFFERING A

5-Year Warranty

on the DR detector and software!

Vieworks Panel and AiRTouch are optimized to produce the best images using our ultra-low dose imaging technique.

Technical Information

X-RAY TUBE & X-RAY GENERATOR

High frequency, 100kHz Monoblock x-ray generator integrated into system

Model: Toshiba D 081B

0.8mm focal spot

TECHNIQUE

Fixed; 60kV 2mA

0.03~1.30 Seconds Available

(Selectable by Operator)

ALL-IN-ONE PC

Windows PC integrated into the device

Pre-Loaded Aspen Imaging Healthcare DR Software

Direct image transfer to Storage Medium (PACS, Email, Printer, etc)

About Aspen Imaging

Aspen Imaging Healthcare is a Texas-based Original Equipment Manufacturer (OEM) providing complete imaging solutions for x-ray distributors and custom designed, private-labeled solutions for OEMs across the Americas.

Founded in 2015, Aspen Imaging has become one of the fastest growing Medical Imaging companies with offices in the United States, Canada, Mexico and South Korea.
